SUBJECT

DIVISION REPORTING:	CCAC	DIVISION OF OCCURRENCE:	DTAC
DATE & TIME OCCURRED:	11/08/2020 2140 Hours	LOCATION OF OCCURRENCE:	[REDACTED] Mesquite Ave #3, LV, NV 89101

Summary:

On July 6th, 2020 I observed on my fake Facebook profile someone under the profile name "Kizzy Chapo" post an advertisement for fake ID's. Through investigation I revealed that his name is George Turner. Turner posted multiple times about making fake ID's and getting them sent out. Enough probable cause and reasonable suspicion was found and a search warrant was obtained granting access to his "Kizzy Chapo" and "George Turner" page. There was no evidentiary value found in the "George Turner" page. Inside of the "Kizzy Chapo" page I found that Turner was only facilitating the forgery of the ID's. He was using a website in which he just punched in the consumer's desired information and pressed send. He would request payment, obtain that payment, and then gain the consumer's desired information. It was also revealed that Turner talked with a friend about him getting another gun, specifically a Glock. Due to revealing all of that information I obtained a warrant, electronically obtained and filed, to search Turner's residence, his person, and to get a buccal swab. We followed up with Turner on his report of MDPP, reference LLV201100003069, and called and left a message saying that we would come to his house and follow up, and then knocked on his door. He answered his door, invited us in, and we talked for a moment about his ex-girlfriend busting his windows. We then detained him and served the search warrant.

Search Warrant Phase:

The warrant was approved by District Attorney Elizabeth Mercer. The warrant was obtained and signed electronically by Honorable District Court Judge Valerie Adair November 7th, 2020. The warrant was reviewed and approved by Sergeant J. Hanshew P#9664.

Entry Phase:

Reference LVMPD event LLV201100003069 Turner called the police after someone threw large rocks through his residence windows. He filed a complaint and wanted to press charges. He believed that the suspect was his ex-girlfriend. I attempted to contact Turner via phone call to follow up on his complaint. He did not answer, and a voicemail message was left advising him that officers were in the area and were following up on other cases and that we would come to his residence to follow up on his complaint and attempt to get suspect information. When officers knocked on his door he cordially and immediately invited us in to speak with him. Short conversation was had and then Turner was detained by Officer Shirts.

Investigation Phase:

While the search of Turner's residence was being conducted, myself and K. Quimiro P#17390 conducted a interview/interrogation with Turner at CCAC in interview room #2. Turner was told initially that there was an investigation going on because he was an ex-felon and has yet to register with the LVMPD as a convicted felon. As the interview was being conducted, I showed Turner printed photos of things that he posted to his Facebook accounts. When it came down to the sale and advertising of fraudulent/counterfeited ID's he said that he has a friend that asks him to post that information for him. He said that by posting that it gets more people to look at his pages and his tattooing, and by doing that he is getting more tattoo business. Turner said that he isn't middle manning the fake ID's but is just advertising it to get more people on his Facebook. Turner said that he goes to the website www.bogusbraxtor.com and is taking photos off of there and posting those photos. He said that the website is where the fake documents are found. When asked about his private messages and the things that he posted himself he said that there's a chance that his ex-girlfriend got in his page and posted that stuff.

Search Phase:

All of the above-mentioned officers and sergeants were present during the search except myself, Quimiro, and Shirts. Shirts transported Turner to CCAC for interview, and Quimiro and I were at CCDC conducting the interview. All items of evidence were impounded under event LLV201100033823.
